Yearbook Faves

yearbook staffers say their favorite part about being in yearbook

I really love how collaborative yearbook is, and how much teamwork goes into it. It's so cool to see how when x amount of people work hard and put effort into something you can make something so reflective and dope that so many people will remember.

-IMAAAN HASSAN 11

I love the people on staff and making friends. Everyone is really kind, understanding, and helpful. It's a great environment to learn new working skills and express creativity.

-ELISABETH GREEN 10

I love how well everyone gets along. If someone needs something there's always a lot of people willing to do it and everyone is very kind and helpful to everyone else.

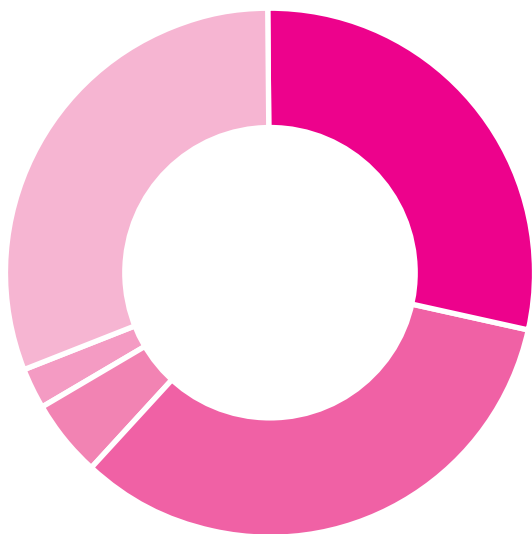

-SOPE KOYA 11

I love how it's like a family and that everyone is so kind and willing to help. It makes it lots of fun when you know everyone around you will cheer you on especially as a newb if I accomplish something new.

-EMMA BARRET 10
