

SEWING FUN

freshman Gigi Welp talks about her sewing passtime.

When did you start doing small clothing alterations?

WELP: "During quarantine. I bought a mini sewing machine because I was very bored and I didn't like any of my clothes anymore and so I started to alter them."

What do you enjoy doing most and why?

WELP: "I love making pillows because it's easy and it's very simple to do. I also alter pants in the back if they fit too loose or cut shirts to make them cropped."

Is there a project you are most proud of?

WELP: "I think that would be the pillow I made for my friend. I cut out and glued her name on it and she eally liked how it turned out. "
